

Entry #50

Name or Description on Memorial: Lamont (skater bronze)

Type/Color of stone (ex. Granite, Bahama Blue): Mahogany tablet & base

Overall height and width: 2 ft wide by 3 ft tall

Please write a brief story behind the design, describing the meaning of symbols, shapes and lettering.

Young Trey was an inspiration to youth. He loved to skateboard and was in the process of raising awareness and funds for a safe place for kids to go, a skatepark that children could use rather than turning to doing bad things, such as drinking or drugs. Sadly, he was killed in a car accident. His mother initially thought of a small skateboard shaped stone & had me start at that point. I did a couple more concepts, one of which was this. It portrays an upward lifted spirit, cast in bronze at the peak of a skating halfpipe, doing what he loved most. It also connects him to the skatepark which is in the process of being installed in his memory.
