Please write a brief story behind the design, describing the meaning of symbols, shapes and lettering.

We were asked to come up with a design for the Wall monument that would depict Robert Wall's love of riding his motorcycle. We had a few rough renderings for the family to choose from with the bike in different positions on the monument, we then thought since the family was also wanting to have a photo plaque placed on the monument that we could do the bike at an angle that would be from his point of view. We then placed his image in the mirror to help finish off the design which the family loved.

LIFE IS A JOURNEY SO HANG ON FOR THE RIDE
