"JE T'AIME" (French for 'I love you') is a striking, timeless emblem of true love. The upward, sweeping lines of both the iconic Eiffel Tower and the exterior tapered bevel create an inspirational, moving sensation. Additionally, the monument personifies and conveys the warmth and energy of this beloved daughter, sister, and friend. The layered skyline is not only a representation of Emily's love for all things Paris, it symbolizes the love and desire her family always had to make their little girl happy.
