

# Keith Jackson 009

---

**Type/Color of Stone:** American Black Granite

**Overall Height and Width:** 3.0 x 1.6 x .4 - flat marker

Mr. Jackson was taken too soon as he succumbed to cancer. In this design the focus was of Mr. Jackson standing on the beach and so the laser etching was made to fit the size of the flat stone so that his photo told the story of a life well lived.
