

# Jayson Withers Memorial 143

**Type/Color of Stone:** Tropical Green

**Overall Height and Width:** 32" x 20" x 4"

When Jayson Withers passed away unexpectedly, his family and friends got a large sheet of paper and cut, pasted and taped together how they wanted Jayson to be remembered... His incredible ability to create artwork and illustrations, his love of fishing, and his passion for longboarding.

I created drawings from Jayson's artwork and the photos provided and carefully arranged them to match the poster created by the family. The result was a sandblasted collage of Jayson's sketches, his custom skateboard logo, a portrait of him skating, and a photo ceramic portrait of Jayson showing off the day's catch.
