

Johnny Shack 152

Type/Color of Stone: Jet Black

Overall Height and Width: 4'2" tall | 2'4" wide

Radio DJ and fiddle player, Johnny Shack, spent his life entertaining others. His permanent tribute is every bit as outgoing and personable as he. The shape of the monument represents a radio tower, and the hand chiseled texture "broadcasts" Johnny's unique life, loud and clear. His Orange Blossom Special is artist etched in the bottom corner.
